Ozone Depleting Substances (ODS):

Digi International is a worldwide supplier and manufacturer of electronic products and understands and supports the requirements of the Montreal Protocol, and U.S. Clean Air Act, restricting the use of Chemicals that cause Ozone Depletion.

Digi International is not a supplier of any Ozone depleting chemicals and we do not knowingly use any Ozone Depleting Substances in our manufacturing processes, or purchase any reclaimed, or recycled ODS material.

Digi requires it's supply chain to be responsible to manage their suppliers / manufacturers to comply with the Montreal Protocol, U.S. Clean Air Act. To the knowledge of Digi none of the products currently shipping contain any ODS chemicals.

Digi will continue to monitor our suppliers and the Regulatory Bodies (Montreal Protocol, US Clean Air Act, etc.) requirements for any changes to the ODS requirements to maintain compliance.

A handwritten signature in black ink, appearing to read "Jon Nyland".
